Service User Views Wanted

We are at a critical point in the development of government policy on alcohol. As you may be aware, there are a series of issues that Government is currently working on in relation to alcohol, including Licensing Law changes, industry responsibility and Models of Care (which will form part of the forthcoming “Programme of Improvements” for alcohol services).

Alcohol Concern is looking to form an informal **Network of Service Users** to give their views on a number of these key issues. The views of the network will go towards achieving better alcohol services and help inform the Government.

The Network will initially be virtual. The views of network members will feed directly into Government through Alcohol Concern.

Please pass on this information to other service users who may be interested.

If you are interested joining the network, please contact Kim Rezel at Alcohol Concern with an email address at which we can contact you. Kim can be reached at krezel@alcoholconcern.org.uk. We will get back to you to establish contact.
